A cruise around Spitsbergen gives you ample opportunity to explore all the aspects of this fascinating arctic island. See the great eastern nature reserves and some of the most spectacular highlights of the Arctic.

We aim at taking you well above the 80th parallel and placing you closer than 600 nautical miles from the Geographical North Pole. The eastern part of Svalbard is more barren and characteristically High Arctic than any other place we visit with MS Fram.

Enjoy expedition landings, hikes, kayaking and other activities in the largest arctic wilderness in Europe.
